Technical data/items supplied

- Incorporated into profile 45 x 180
 - Overall cylinder size Ø 25 mm
 - Guide shafts Ø 20 mm
 - Fully assembled with double acting pneumatic cylinder
 - F+ at 6 bar = 265 N
 - F- at 6 bar = 220 N
 - Stroke = 100 mm
 - Weight = 3.507 kg/piece

Applications

- Lifting and lowering of loads
 - Attachment for grips or similar
 - Positioning of parts

Assembly

- With mounting angle bracket on profile construction
 - Other stroke lengths on request
